

## UniverFado

UniverFado is the name for Carolina Blàvia's Fado Visual project. Carolina is a singer / fado singer, lyricist and composer.

Carolina expresses herself by drawing her compositions (graphic expression / synesthesia) and she is the author of all the images you can see while enjoying music.

The Univerfado project has recently been successfully presented at the 2015 V Congress of Science, Art and Synesthesia in Granada, Spain.

The Univerfado project also features the work of the musician, teacher and arranger Pancho Marrodán. Pancho, Carolina and the violinist Mariona Montagut, have created a collection of their own songs and traditional fado with interesting, high quality arrangements and lyrics in Portuguese and Catalan.

The Univerfado project offers an innovative, original and artistically personal event.

Carolina Blàvia-Voice.

Pancho Marrodán-Piano.

Mariona Montagut-Violin.
